Are you often described as a leader, an achiever, or an innovator? Do you have limitless drive, ambition, and determination? If so, there's an opportunity to receive a \$25,000 prize towards your post-secondary education.

The STEAM Horizon Awards, a newly funded prize program, invites Canada's youth to promote positive changes throughout their community using science, technology, engineering, arts, and math (STEAM).

Up to seven students will each be awarded a \$25,000 prize for their post-secondary education. Two of the seven prizes will go to Indigenous youth. The prizes will be funded by the Canada Science and Technology Museums Corporation Foundation, alongside eight Founding Partners. We are confident that these recipients will act as role models and ambassadors for future STEAM generations.

For more information, visit the [STEAM Horizons Awards web site](#) [1].
