

ATTENTION TEACHERS!

The Cariboo-Mainline Regional Science Fair is opening a **NEW** category...

SCIENCE-IN-ART

- We wish to promote innovation, sustainability, and creativity.
- Students will apply the scientific method and communicate results.
- We are encouraging entries in a variety of forms:
 - miniature models, 3-D printed objects
 - paintings, drawings
 - videos, animations
 - poems, journal entries, short stories etc.
- This artistic approach will **complement/elevate** the scientific method.

Project Ideas:

How do scientists know if a virus is living or non-living?

How does antibiotic resistance work?

Are all bacteria harmful?

Why aren't all vaccines always 100% effective?

Benefit for Teachers:

Microgrant for supplies/equipment (\$500) **PLUS** students will have fun being creative and gaining an appreciation for science!

Registration Information:

Deadline to register: **March 3, 2023**
Date of science fair competition: **April 12, 2023**

Microgrant Application Form:
